SOLYSTIC, A 60 YEAR PARTNER OF THE POSTAL SERVICES.

SOLYSTIC would like to thank all those who have placed their trust in us.

MARS is one of the very first machines to be designed for carrier route sequencing. For the last 10 years, the success it has achieved among postal operators has inspired our teams to go further. Therefore, as the 1000th MARS machine is installed, we would like to take this opportunity to sincerely thank you all.

MARS, the small machine that makes a big impression.
