

Societal Commitment

The management of Solystic is committed to always providing solutions and services at a quality level that meets or exceeds the quality requirements of both internal and external customers and to conducting its operations in a manner that protects the health and safety of our employees, customers, providers, visitors, and neighbors, while respecting the environment. Upholding this commitment is the individual and collective responsibility of all employees.

Comply with all applicable laws, regulations, and requirements concerning the environment, health, safety, and quality.

Take all necessary measures **to prevent occupational risks** and improve working conditions.

Reduce the environmental impact of our operations, solutions, and services by preventing all forms of pollution, conserving natural resources, limiting energy consumption, and addressing climate change.

Adhere to the strictest standards of **ethics, transparency, and inclusion**.

Train and involve employees in protecting the environment and creating a safe and healthy workplace.

Implement a **responsible purchasing strategy** by involving our suppliers in our sustainable development approach.

Continuously improve our processes and performance, including periodic evaluations by third parties.
