

# SOLYSTIC

a **NORTHROP GRUMMAN** company

Our Soly™ mobile robotics solution provides you extra value and flexibility.

We are today proposing an innovative mobile robotics approach known as Soly™ to sort packages, prepare the delivery round or transport objects. We simulate the solution to configure your specific requirements as early as the pre-sales phase. Sustainability, flexibility and profitability... innovating only makes sense if it is useful.

This is how we see innovation at SOLYSTIC.
